# STEPS TO ESTIMATE THE COST OF CARE

## Step 1

dentify the most common prescriptions that you prescribe. If you cannot think of them right away, it may be easier to cluster them by the most common conditions that you treat.

<b>2</b>	, 2ª ■?	7 7	<b>■</b> [2 ,	<b>?</b>	<b>2</b> 4	,	<u> </u>	■?	<b>•</b> ?		<b>7</b>	<b>■</b> ?	).
	•? •0	/											

			O li e Pha ₄ ac
OneRX	Albuterol	\$23	\$20
GoodRx	Tiotropium	\$434	\$43
PharmacyChecker   PharmacyChecker	Budesonide/formoterol	\$333	\$50
WeRx	Umeclidinium/vilanterol	\$43	\$ 4

## Step 3

List all of the tests or procedures that you might commonly recommend.

### Step 4

There are several online cost estimators freely available that will allow you to look up the approximate charge of the most common tests or procedures you order.
